

BRANIA

Subprocessor List

Version 1.0 | Effective August 7, 2026 | <https://www.brania.ai/legal/subprocessors>

This list identifies BRANIA's direct subprocessors that may Process Customer Personal Data in connection with BRANIA Services. It is maintained pursuant to the BRANIA Data Processing Agreement. A listed subprocessor may itself use approved downstream subprocessors under its own data-processing terms.

LEGAL TRANSPARENCY

Underlying technology providers need not be named in commercial product descriptions. A provider that Processes Customer Personal Data on BRANIA's behalf is disclosed here for privacy transparency and DPA compliance.

Direct Subprocessor	Processing purpose	Primary location	Applies to
HighLevel, Inc.	Underlying operational platform, CRM/workflow infrastructure, communications enablement and related platform services.	United States; provider and approved downstream processing locations may apply.	Bedrock and related enabled services

1. Downstream Providers

HighLevel, Inc. maintains its own public list of downstream subprocessors. BRANIA's authorization of HighLevel as a direct subprocessor includes its use of downstream subprocessors in accordance with HighLevel's applicable data-processing agreement, subject to BRANIA's obligations to Customer under the BRANIA DPA. BRANIA may separately list additional direct subprocessors here when BRANIA contracts with them directly to Process Customer Personal Data.

2. AI Providers

BRANIA will add any AI model or AI infrastructure provider that directly Processes Customer Personal Data under BRANIA's own account to this direct Subprocessor List before material production use, unless the provider is solely a downstream subprocessor of another approved direct subprocessor. The exact AI provider(s) used by BRANIA Foundation must be confirmed before production Processing of Customer Personal Data.

3. Updates and Objections

BRANIA may update this list in accordance with Section 5 of the DPA. Customers may submit documented data-protection objections to hello@brania.ai. Archived material versions will be maintained through <https://www.brania.ai/legal/archive>.
